

PURE SMART

PURE SMART

Tankless Intelligent Pressure-Assist One-Piece Toilet

The PURE SMART represents the next evolution of bathroom technology, combining a sleek tankless one-piece design with advanced intelligent bidet functionality and the powerful Kirin Pressure-Assist Flushing System. Designed for modern luxury bathrooms, this intelligent toilet enhances comfort, hygiene, and convenience while maintaining exceptional water efficiency. Featuring automatic flushing, adjustable wash functions, warm air drying, and smart temperature controls, PURE SMART delivers a fully integrated personal care experience. Its minimalist fully skirted profile, ADA-compliant universal height, and CUPC certification make it an ideal solution for both high-end residential and commercial spaces.

Key Features:

Intelligent Bidet System

- Integrated front and rear wash with adjustable water temperature and pressure for enhanced personal hygiene.

Oscillating Wash Technology

- Moveable oscillating spray provides thorough and comfortable cleaning coverage.

Warm Air Dryer

- Adjustable warm air drying function reduces the need for toilet paper.

Automatic Lid & Smart Operation

- Automatic lid opening and soft closing provide hands-free convenience and a modern user experience.

Remote & Smart Control

- Wireless remote control allows adjustment of wash functions, seat temperature, water temperature, and drying settings.

Kirin Pressure-Assist Flushing System

- Advanced pressure-assist flushing ensures powerful and consistent performance using minimal water.

Automatic & Sensor Flush

- Multiple flushing options including automatic flush when leaving, remote flush, and foot sensor flush.

Bubble Shield Technology

- Creates a protective water layer that helps prevent splashing and improves hygiene.

UV & Antibacterial Sanitation

- Features UV sanitization, antibacterial nozzle, antibacterial seat, and self-cleaning nozzle system for enhanced hygiene.

Night Light & Energy Saving Mode

- Integrated intelligent night light with energy-saving functionality for comfort and efficiency.

Safety Protection System

- Multiple built-in protections including overheat protection, anti-scald technology, over-pressure protection, dry-fire protection, and leakage protection.
